- 8:20 a.m. Welcome Remarks by Senior Representative from U.S. Department of Commerce**
- 8:25 a.m. Opening Address by U.S. Ambassador to Singapore**
- 8:35 a.m. Aerospace Landscape and Opportunities in Asia Pacific**
Speaker: Mr. Malcolm Ramsay, Global Head of Aviation, KPMG - <http://www.kpmg.com>
Remark: KPMG is committed to education and lifelong learning as they are central to building strong communities and economies. At KPMG, its promise of professionalism to each other, its clients and the capital markets it serves compels them to align its culture of integrity with its values, words and actions.
- 8:55 a.m. Overview of Singapore's Aerospace industry**
Speaker: Mr. TAN Kong Hwee, Director (Transport Engineering Cluster), Singapore Economic Development Board (TBC) - <http://www.sedb.com>
Remark: Singapore Economic Development Board (SEDB) is the investment promotion agency of the Government of Singapore. The SEDB plays a pivotal role in identifying and pioneering economic opportunities for Singapore, its people and foreign business partners.
- 9:15 a.m. Introduction of DSTA and its Activities & Projects Status**
Speaker: Mr. TAN Peng Yam, Chief Executive, Singapore Defense Science & Technology Agency (TBC) - <http://www.dsta.gov.sg>
Remark: DSTA is the engineering & procurement arm of the Singapore Ministry of Defense. It is responsible for implementing defense technology plans; acquiring material and developing defense infrastructure for the Singapore Ministry of defense (MINDEF). It acquires weaponry systems for the Singapore Armed Forces (Army, Navy & Air Force); Advises MINDEF on all defense science and technology matters; Designs, develops and maintains defense infrastructure; Provides engineering and related services in defense areas; and Promotes and facilitates the development of defense science and technology in Singapore.
- 9:35 a.m. Introduction of Singapore Technologies Aerospace (STA) Group and an Update of STA's Activities/Projects**
Speaker: Mr. LIM Serh Ghee, President, Singapore Technologies Aerospace Ltd. (TBC) - <http://www.staero.aero>
Remark: Singapore Technologies Aerospace (ST Aerospace) is the world's largest independent MRO operator. ST Aerospace provides support services for commercial and military aircraft including airframe, engine and component maintenance, repair and overhaul, engineering, design and development, and aircraft spares supply and management services. It has offices and facilities in key aviation hubs in Americas, Asia Pacific, Europe, and the Middle East. ST Aerospace has over 7,000 certified engineers and administrative specialists.
- 9:55 a.m. Introduction of FAA's NextGen Air Transportation System**
Speaker: Senior FAA Representative (TBC) - <https://www.faa.gov/nextgen/works/>
Remark: NextGen is one of the most ambitious infrastructure and modernization projects in U.S. history. Its successful, ongoing rollout is the result of rigorous acquisition, program and portfolio management, and stakeholder engagement with the airline industry and other members of the aviation community. The FAA invited airline stakeholders to help develop the blueprint for NextGen and they continue to have a seat at the table in setting NextGen priorities and investments through the NextGen Advisory Committee.
- 10:15 a.m. Q & A**
- 10:30 a.m. End of Session**

Note: The program and speakers may subject to change at the discretion of the U.S. Embassy in Singapore
